SECTION 4 - FIRST-AID MEASURES

4.1 Description of First-Aid M	easures	
General Measures	: Call a physician immediately.	
Inhalation	: Remove person to fresh air and keep comfortable for breathing.	
Skin Contact	: Wash skin with plenty of water. Take off contaminated clothing. If skin irritation occurs: Get medical advice/attention.	
Eye Contact	: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.	
Ingestion	: Do not induce vomiting. Call a physician immediately.	
First-Aid Responder Protection	: Wear adequate personal protective equipment based on the nature and severity of the emergency.	
4.2 Most Important Symptoms and Effects, Both Acute and Delayed		
Symptoms of Exposure	: Eye Irritation, Nose Irritation, Throat Irritation, Lassitude (Weakness), Dermatitis, Confusion, Skin Irritation, Headache, Dizziness, Nausea, Narcosis, Drowsiness, Vomiting, Optical Nerve Damage, Cough, Chest Tightness, Chemical Pneumonitis (Aspiration Liquid), Numbness, Mucous Membrane, Diarrhea.

Delayed Effects	: No known delayed effects.	
Immediate Effects	: No known immediate effects.	
Chronic Effects	: Repeated or prolonged contact may cause skin sensitization.	
Target Organs	: Central Nervous System, Eyes, Liver, Nasal Cavity, Peripheral Respiratory System, Skin, Kidneys.	Nervous System, Reproductive System,
4.3 Indication of Immediate M	edical Attention and Special Treatment	
Notes to Physician	: Treat symptomatically.	
Specific Treatments/Antidotes	: No Information Available.	
Medical Conditions Aggravated	: May aggravate personnel with pre-existing disorders associa	ted with any of the Target Organs.
SECTION 5 - FIRE-FIGHTING M	EASURES	
5.1 Suitable Extinguishing Med	ia	
Extinguishing Media	: Water, carbon dioxide, dry chemical, universal aqueous film	forming foam.
Unsuitable Media	: Water jet.	
5.2 Specific Hazards Arising fro		
Hazardous Combustion Products	: Decomposition products may include: oxides of carbon, smol	· ·
Specific Hazards During Firefighting	: Extremely flammable. Contents under pressure. In a fire or if may result in container bursting. Vapours heavier than air ma ignition source.

7.1 Precautions for Safe Ha	andling
General Handling Precautions	: KEEP OUT OF THE REACH OF CHILDREN. Avoid prolonged or repeated skin contact. Avoid breathing of vapors. Do not incinerate (burn) containers. Always replace overcap when not in use. Avoid use around open flames or other sources of ignition. Exposure to heat or prolonged exposure to sun may cause can to burst. Use only with adequate ventilation, opening doors or windows to achieve cross-ventilation.
Hygiene Recommendations	: Do not eat, drink or smoke when using this product. Wash hands thoroughly after use. Remove contaminated clothing and protective equipment before entering eating or smoking areas.
7.2 Conditions for Safe Storage Including Any Incompatibilities	
Storage Requirements	: Storage of individual cans should be done in an area below 55°C (120 °F), and away from heat sources. Ensure can is in a secure place to prevent knocking over and accidental rupture.

Incompatibilities

: Segregate storage away from materials indicated in Section 10.

8.2 Exposure Controls

Engineering Measures

: Use only with adequate ventilation. General ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. Local exhaust ventilation or an enclosed handling system may be necessary to control air contamination below that of the lowest OEL from the table above.

Eye / Face Protection: Safety glasses with side shields are recommended as a minimum for any type of industrial chemical handling. Where eye contact with this material could occur, chemical splash proof goggles are recommended.Hand Protection: Chemical-resistant gloves, tested according to ASTM F903-17.Remarks: Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous substance and specific to the place of work.Skin and Body Protection: For brief contact, no precautions other than clean body-covering clothing should be needed. When prolonged or repeated contact could occur, use protective clothing impervious to the ingredients listed in Section 2.Respiratory Protection: An approved respirator with an organic vapor cartridge may be permissible under certain circumstances where airborne concentrations are expected to exceed occupational exposure limits.Compliance: If needed, compliance with OSHA standard 29 CFR 1910.134 is necessary.Other Protective Equipment: Safety showers and eye-wash stations should be available in the workplace near where the material will be used.Environmental Exposure Controls: Avoid release to the environment.

SECTION 13 - DISPOSAL CONSIDERATIONS

13.1 Wast	te Treatment Methods	
Waste Disposal		: Characteristics and waste stream classification can change with product use and location. It is the responsibility of the user to determine the proper storage, transportation, treatment, and/or disposal methodologies for spent materials and residues at the time of disposition. All waste must be disposed of in compliance with the respective national, federal, state, and/or local regulations.
Waste Disposal (Of Packaging	: In the United States, an aerosol container that does not contain a significant amount of liquid would meet the definition of scrap metal (40 CFR 261.1(c)(6)), and would be exempt from RCRA regulation under 40 CFR 261.6(a)(3)(iv) if it is to be recycled. If containers are to be disposed of (not recycled) it must be managed under all applicable RCRA and state regulations.
